

MikroPrinc

elektronske komponente, alat, lezna i merna oprema

Modul za eliminisanje šuma motora za 3D štampač, TL smoother

UPUTSTVO ZA UPOTREBU

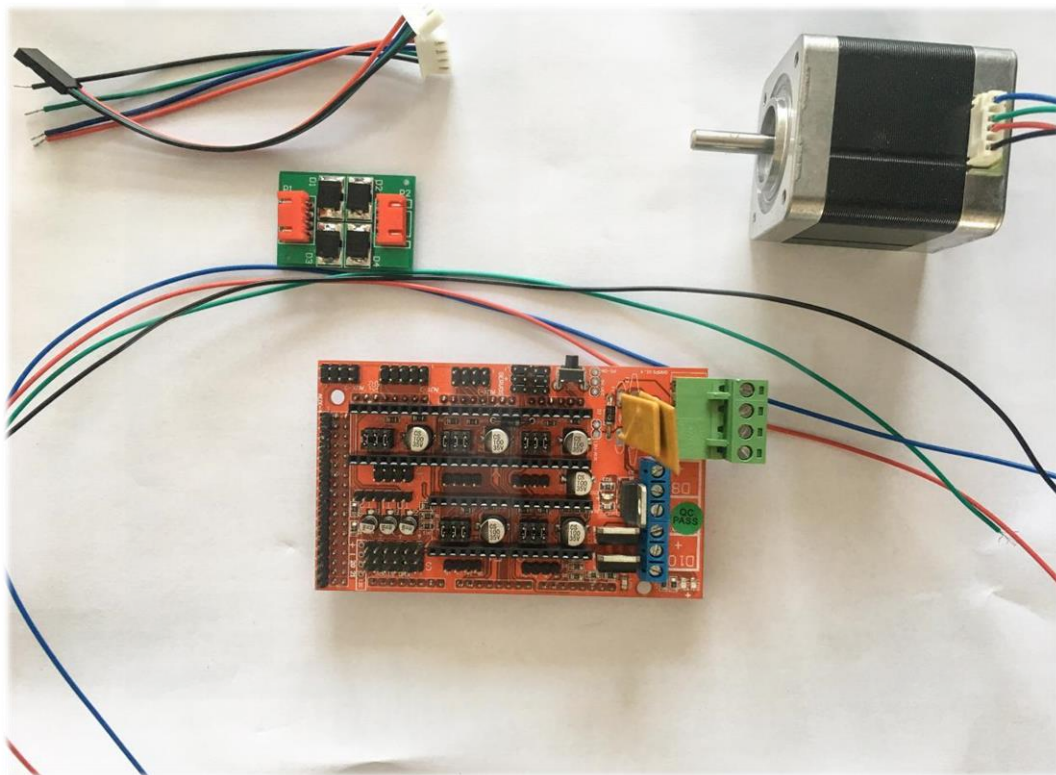

Kratak opis proizvoda

Modul za eliminisanje šuma motora za 3D štampač, TL smoother je modul koji se koristi kod drivera motora za 3D štampač. Posebno je pogodan za štampače koji koriste DRV8825 ili A4988 step drivere sa napajanjem do 24V.

Omogućava manje vibracija, niži nivo buke, lako se montira i povezuje sa 4-pinskim kablom.
